ABOUT ME

Hey! I’m Jenil, an illustrator and graphic designer with tiny experience in UI/UX design as well. I enjoy working with all kinds of art mediums, be it digital, traditional, clay sculpting or anything tangible that can be morphed into an art piece. I specialise in creating playful yet captivating visual assets, from custom characters and mascots to animations, extending to tactile custom merchandise as well! Hurry! Let's unbox your next big idea and bring it to life:)

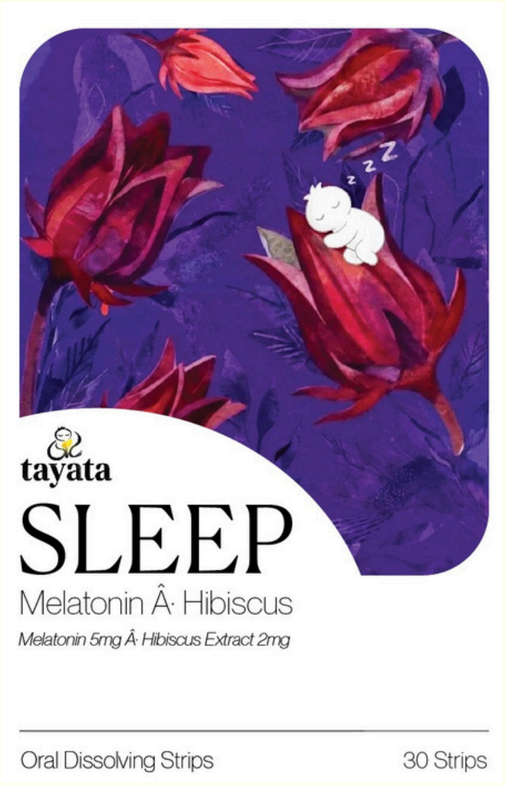

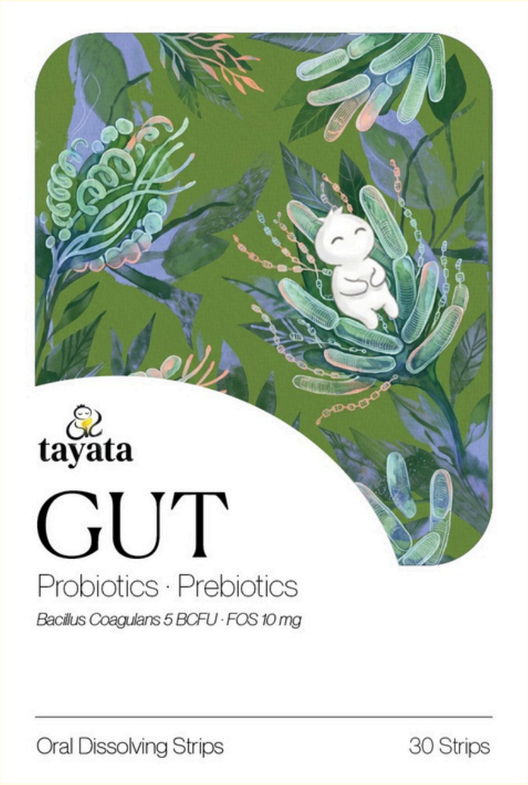

BRANDING

TAYATA.CO

TAYATA.CO is a nutraceutical brand creating wellness products and supplement. Their main aim was to create a warm, inviting and friendly mascot for their brand which would build trust in their products. I designed this character for the company, making sure it felt warm, calm, trustworth, welcoming and friendly.

MENU

As someone who visits a new cafè almost every weekend, seeing all the different menu designs really sparked my creativity, so to try my hand at it, I created a few handmade mock-up menu design. All illustrations and typography is hand-drawn.

CUSTOM WORK

I have a habit of gifting my loved ones hand-made gifts, often designs and tees about our own little inside joke or something they cherish or someone they’re a fan of. Here’s a collection of all those little quirky collections.
